

# **SPECIAL BOLTON BULLETIN**

***As of Tuesday, September 20, 2021  
Lower Bolton Lake has a  
significant visible algae bloom.***

Direct exposure to algae tainted water by way of ingestion, inhalation, or contact with skin may pose a risk to health.

**It is highly advised that there be no swimming, and pets should be kept out of the water. Please avoid skin contact with the water when boating and fishing. If fishing, catch and release is recommended.**

If you have any questions, please call the Eastern Highlands Health District at 860-429-3325.

- ❖ NO Swimming**
- ❖ NO pets allowed in the water**
- ❖ NO watering of livestock**
- ❖ NO drinking of water**
- ❖ Avoid skin contact with water when boating and fishing**
